**UI/UX Designer** - Crafting visually appealing and intuitive digital products that enhance user experience. Hoping to further my career in the design space.

## —> EXPERIENCE

### Global Digital Marketing

UI/UX Designer, Content Writer • June 2023 - Present

I partner with content writers and editors to understand their needs and goals, and then translate those into designs that help them create and deliver high-quality content.

### RI Software

Senior Product Designer • March 2023 - June 2023

Led a team of designers in the design of the UX and UI of RI Software, a SaaS collaboration and project management platform for businesses of all sizes and industries.

### Freelance

UI/UX, Product Designer • Mar 2018 - June 2023

Successfully designed and delivered user experiences and user interfaces for a variety of projects, including mobile apps, websites, and e-commerce platforms.

### Govt. Technical Training Institute (TEVTA)

Visiting Lecturer (Electrical) • Feb 2016 - Feb 2018

Taught calculus mathematics to Diploma of Associate Engineering students after completing my engineering degree.

### Riz Solutions

Data Entry and Service Operator • May 2014 - Dec 2015

Accurately and efficiently entered large amounts of data into various systems and databases.
